What is Bootcamp?

The term **"bootcamp"** originates from military training, where it refers to a short, intense training program designed to teach recruits the basic skills and discipline needed for military service. Over time, the term has evolved and is now widely used to describe any intense, immersive training program designed to teach specific skills in a short period.

What is Bootcamp?

A **bootcamp** is an intensive, short-term training program designed to teach specific skills in a focused, hands-on environment. They are often geared toward preparing individuals for careers in fields such as technology, coding, data science, AWS-DevOps, and digital marketing. Bootcamps typically last from a few weeks to a few months and offer a practical curriculum designed to quickly upskill participants.
